

Shoalhaven Wig Library Service

This is a free loan service offered to men and women with temporary hair loss from chemotherapy or a medical condition. The service is run by volunteers based at Shoalhaven District Memorial Hospital during business hours.

We have a large selection of wigs with many colours and styles to choose from.

There is a range of alternate head wear including turbans, scarves and bandanas which are also free of charge.

We demonstrate our wig collection at *Look Good, Feel Better* workshops and we are also available to speak to interested clubs, organisations and support groups.

No referral is needed. Telephone for a private consultation which takes approximately 1 hour.
