

# Illawarra COVID-19 Outcome Study (ICOS)

A research study to identify health impacts and needs of individuals with COVID-19 over a period of six months

## Have you tested positive to COVID-19?

We're calling for people who have tested positive for COVID-19 to participate in this study, including:

- ✓ Those who have tested positive to COVID-19 at any time
- ✓ Those who have fully recovered
- ✓ Those living anywhere in Australia

The aim of this study is to understand the longer-term effects of COVID-19 on the human body. It involves taking a short survey (approximately 10 minutes) upon enrolment to the study and at 1, 3 and 6 months after enrolment.

The study is being conducted by:

- Principal Investigator, Dr Stuart Tan - ISLHD Specialist Physician in Trauma & Rehabilitation Medicine [Stuart.Tan@health.nsw.gov.au](mailto:Stuart.Tan@health.nsw.gov.au)
- Dr Lyndel Hewitt - ISLHD Research Clinician [Lyndel.Hewitt@health.nsw.gov.au](mailto:Lyndel.Hewitt@health.nsw.gov.au)
- Dr Jose Cuenca - ISLHD Research Clinician [Jose.Cuenca@health.nsw.gov.au](mailto:Jose.Cuenca@health.nsw.gov.au)
- Mr Dante Risi – ISLHD Research Clinician [Dante.Risi@health.nsw.gov.au](mailto:Dante.Risi@health.nsw.gov.au)
