Changes to vaccination clinic operating hours

As vaccination rates across the state continue to increase, less people are requiring their first and second doses.

COVID-19 boosters and vaccinations for children have become the focus for the District's vaccination clinics, and we have adjusted operating hours at the Mass Vaccination Centre in Wollongong and the Shoalhaven Hospital Vaccination Clinic in line with these priorities.

Additional after school vaccination appointments will be available for local kids, with both clinics extending operating hours to 6pm on select days.

At the Mass Vaccination Centre, children aged five to 11 can receive their vaccination on Mondays and Fridays from 2pm to 6pm (walk-ins available until 5.30pm), or on Saturdays and Sundays from 8am to 2pm (appointments and walk-ins available).

From this week, the Shoalhaven Hospital Vaccination Centre will operate on Wednesdays and Fridays only, however with the extended hours of 8am to 6pm. Vaccinations for children aged 5 to 11 will be available on Fridays, and those aged 12 and over can attend the clinic on Wednesdays.
