The Illawarra Shoalhaven Local Health District (ISLHD) Cardiovascular Clinical Trials Unit is situated at the Illawarra Heart Health Centre in Wollongong Hospital. It boasts a specialised team comprising doctors, nurses, and allied health professionals.

This unit actively supports a range of clinical trials, contributing to evidence-based practices, fostering knowledge development and enhancing patient care within the local community.

We currently have trials open for patients with:

- Heart attack and unstable angina
- High Cholesterol
- Atrial fibrillation
- Atrial stenosis
- Heart Failure
- Implanted cardiac devices
- Left ventricular thrombus

## REFERRAL OR CONSULTATION

To discuss your patient with an ISLHD Trials Clinician  
please phone the Illawarra Heart Health Centre on 02 4253 4908

# ISLHD Cardiovascular Clinical Trials

## **\*\*CURRENTLY OPEN FOR RECRUITMENT\*\***

### Medication trials

<b>Hyperlipidaemia</b>	<b>PREVAIL:</b> A Placebo-Controlled, Double-Blind, Randomized Phase 3 Study to Evaluate the Effect of 10 mg Obicetrapib in Participants with Atherosclerotic Cardiovascular Disease (ASCVD) Who are Not Adequately Controlled Despite Maximally Tolerated Lipid Modifying Therapies	A/Prof Lee	
<b>CVD, CKD &amp; inflammation</b>	<b>ZEUS:</b> Ziltivekimab (anti-inflammatory monoclonal antibody) versus placebo in patients with cardiovascular disease, renal impairment and raised hs-CRP. CV outcome study. Monthly injection.	A/Prof Lee	
<b>STEMI</b>	<b>RESTORE MI:</b> Restoring Microcirculatory Perfusion in ST-Elevation Myocardial Infarction A randomised trial to evaluate the efficacy of low-dose intracoronary tenecteplase in STEMI patients with high microvascular resistance post[1]PCI A multicentre double-blind placebo-controlled study in Australia and overseas	Dr Shetty	

### Intervention trials

<b>Aortic stenosis</b>	<b>EASY-AS:</b> A trial of early valve replacement in severe asymptomatic aortic stenosis	Dr Danson	
<b>Hyperlipidaemia</b>	<b>GOAL ASIA:</b> Guideline Oriented Approach to Lipid Lowering In Asia-Pacific	A/Prof Lee	
<b>LV thrombus</b>	<b>RELEVANT:</b> Resolution of left ventricular thrombus with different anti coagulation strategies	Dr Moragues	
<b>Implant device</b>	<b>PROTECT ICD:</b> Programmed Ventricular Stimulation to Risk Stratify for Early Cardioverter-Defibrillator (ICD) Implantation to Prevent Tachyarrhythmias following Acute Myocardial Infarction	A/Prof Lee	

**For further information regarding these trials at the Illawarra Heart Health Centre you may also contact the trial coordinators as listed or email [ISLHD-cardiacresearch@health.nsw.gov.au](mailto:ISLHD-cardiacresearch@health.nsw.gov.au)**
