The Illawarra Shoalhaven Local Health District (ISLHD) Cardiovascular Clinical Trials Unit is situated at the Illawarra Heart Health Centre in Wollongong Hospital. It boasts a specialised team comprising doctors, nurses, and allied health professionals.

This unit actively supports a range of clinical trials, contributing to evidence-based practices, fostering knowledge development and enhancing patient care within the local community.

We currently have trials open for patients with:

- Heart attack and unstable angina
- High Cholesterol
- Atrial fibrillation
- Atrial stenosis
- Heart Failure
- Implanted cardiac devices
- Left ventricular thrombus

REFERRAL OR CONSULTATION

To discuss your patient with an ISLHD Trials Clinician
please phone the Illawarra Heart Health Centre on 02 4253 4908

ISLHD Cardiovascular Clinical Trials

****CURRENTLY OPEN FOR RECRUITMENT****

Medication trials

Hyperlipidaemia	PREVAIL: A Placebo-Controlled, Double-Blind, Randomized Phase 3 Study to Evaluate the Effect of 10 mg Obicetrapib in Participants with Atherosclerotic Cardiovascular Disease (ASCVD) Who are Not Adequately Controlled Despite Maximally Tolerated Lipid Modifying Therapies	A/Prof Lee	
CVD, CKD & inflammation	ZEUS: Ziltivekimab (anti-inflammatory monoclonal antibody) versus placebo in patients with cardiovascular disease, renal impairment and raised hs-CRP. CV outcome study. Monthly injection.	A/Prof Lee	
STEMI	RESTORE MI: Restoring Microcirculatory Perfusion in ST-Elevation Myocardial Infarction A randomised trial to evaluate the efficacy of low-dose intracoronary tenecteplase in STEMI patients with high microvascular resistance post[1]PCI A multicentre double-blind placebo-controlled study in Australia and overseas	Dr Shetty	

Intervention trials

Aortic stenosis	EASY-AS: A trial of early valve replacement in severe asymptomatic aortic stenosis	Dr Danson	
Hyperlipidaemia	GOAL ASIA: Guideline Oriented Approach to Lipid Lowering In Asia-Pacific	A/Prof Lee	
LV thrombus	RELEVANT: Resolution of left ventricular thrombus with different anti coagulation strategies	Dr Moragues	
Implant device	PROTECT ICD: Programmed Ventricular Stimulation to Risk Stratify for Early Cardioverter-Defibrillator (ICD) Implantation to Prevent Tachyarrhythmias following Acute Myocardial Infarction	A/Prof Lee	

For further information regarding these trials at the Illawarra Heart Health Centre you may also contact the trial coordinators as listed or email ISLHD-cardiacresearch@health.nsw.gov.au

Stephen Mackay — Trial Coordinator
Martin Walker — Research Nurse
